Letters to customers or employer

Next Steps

- | Training: TM Forum Career Certification is a personalized program that signifies an individual's expertise. To continue your training and certification path, plan your next course now. Browse the [Online courses](#) or [on-site courses](#) to find what to take next.
- | Usage: For many who take TM Forum Training and Knowledge Certification exams, the next step is to implement a solution based on the standards or best practices you have learned. [Coaching](#) from our subject matter experts complements our training and certification program to help you make the link between the skills you learned in the courses and the proper application of the standards, best practices and tools in the specific context of your project.
- | Get Involved: Join a [TM Forum community](#) to get involved in our collaboration program.
- | Collaborate: The [Collaboration](#) Program is our virtual R&D organization for the industry where TM Forum best practices and standards are defined, and you have a chance to share your thoughts, ideas and experiences for further development of these standards. Through participation, you and your company can become market leaders and have intimate knowledge of the TM Forum guidebooks, frameworks, and interfaces that are widely used in the industry.
- | [Join a Catalyst project](#) - a rapid fire proof-of-concept project bringing together companies large and small to create

innovate solutions to common challenges.

- 1 [Contact](#) our Research & Analysis team about submitting a Case Study, to show how your company has successfully used Frameworkx.
- 1 Attend a TM Forum [conference or event](#) in your region.

You may also wish to discuss your options with your Manager or organization's Career Development person. The validity may be extended until such time that there is a substantial update in the underlying technology and the content of one or more of the component courses is significantly changed. At this time, you will be notified of your requirement to re-take the related exam(s), or other mini-exam(s) covering the new content, to maintain your certification (within 6 months of the notification). It is expected that the TM Forum will offer some online training modules covering the new content of the related courses/subjects, which may be mandatory for passing the new exam(s).

Validity and how to keep your certification current

Your career certification will be valid for at least 2 years from the date of this letter.

On passing the required examinations, certification will be valid for at least a further two years under the same conditions outlined above.

You may carry more than one Certification at a time.

Should you wish to discuss your options with us or have any other questions, please contact education@tmforum.org .

Best Regards, Damian Byrd
Head of Training, TM Forum
